necessary equipment to pre-bore and install piling of various sizes for slide correction and structure foundation repairs.

3.1.1.2 Equipment Minimum Requirements:

- Drill shall be mounted on a turntable base with a 240-degree rotation and a 30-inch slide stroke at any point in the arc of rotation.
- Drill shall possess a power plant and a mechanical drill assembly, which delivers 35,000 foot-pounds of torque to the Kelly bar, which rotates the Auger or Core Barrel.
- Drill shall be equipped with a power plant and mechanical or hydraulic mechanism capable of exerting a down pressure or crowding force of at least 12,000 pounds.
- Drill shall be equipped with power plant and mechanical mechanism to operate a service hoist for installing piles; the hoist system shall have a lifting capacity of 8,000 pounds and can install 40-foot piling.

The operator shall have one year of paid experience with similar equipment on similar types of jobs. The helper shall have six months of paid experience on similar types of jobs. Vendors shall provide, at the time of submitting their bid, at a minimum, the name of one operator and the name of one helper along with their years of experience. REQUEST FOR QUOTATION
Power Earth and Rock Augers/Drills with Operators

3.1.2 Site Preparation, Stake-out, Hole Size and Pile Installation:

3.1.2.1 Site Preparation: The WVDOH will, in advance of drilling operations, prepare the site for safe and efficient work. This shall be done in collaboration with the Vendor or his authorized representative. The Vendor and the WVDOH will jointly determine that safe working conditions do exist and either party will have the right to refuse to perform work, if, in their opinion, unsafe working conditions exist.

3.1.2.2 Stake-out: The location of holes and piles to be installed shall be directed by the WVDOH Engineer/Manager or his designee. The WVDOH will stake-out all work to be performed.

3.1.2.3 Hole Size: The size and depth of the holes will be governed by the size of the piles. The hole should be no less than two inches (2") greater in diameter than the maximum dimension of the pile to be installed. In conditions where boulders, etc., are encountered, the diameter of the hole may have to be considerably larger than the maximum dimensions of the pile.

3.1.2.4 Pile Installation: The angle of inclination from the vertical and the length of each pile shall be directed by the WVDOH Engineer/Manager or his designee. Piles shall be installed immediately after each hole is drilled, unless otherwise directed by the WVDOH Engineer/Manager or designee. The WVDOH will perform required splicing of piles and pile cut-off. Piles shall be furnished, delivered and positioned on the site by the WVDOH so that they are conveniently available for immediate installation at each hole.

3.1.3 Down Equipment: Equipment shall be considered down if it is out of production due to mechanical failure or other conditions and no pay will be authorized until production is resumed. The WVDOH will not pay the time during fueling, lubrication and warm-up of the unit.

Equipment shall not leak any fluid sufficiently to cause a six-inch (6") stain or greater on the road. If the equipment does leak a six-inch (6") stain or greater on the road, the WVDOH will shut the equipment down as unsafe until the leak is properly repaired by the Vendor.

The WVDOH reserves the right to shut down operations in the event of SRIC Season or any State of Emergency events.

REQUEST FOR QUOTATION
Power Earth and Rock Augers/Drills with Operators

- 3.1.4 Mobilization:** One-time, one-way mobilization shall be paid by the WVDOH for moving of said equipment from the contractor's base of operations to the work site and/or from one WVDOH worksite to another, whichever mileage would be of lesser cost to the WVDOH. This will be provided to the Vendor on the Delivery Order. Return of equipment to the contractor's base of operations will not be paid by the WVDOH.

The most direct suitable route from the contractor's base of operations to the work site or between work sites will be agreed upon by the WVDOH and the contractor as mileage for calculation of Mobilization. The most recent 911 address or physical location of the contractor's base of operation must be provided on the Information Attachment Form (post office box address is not adequate).

In-state delivery route mileage will be calculated by the WVDOH from the equipment owner's location of the equipment to the WVDOH job site by utilizing the WVDOH Straight-Line Diagrams. These Diagrams for WV Primary Routes and WV Secondary Routes are available in each WVDOH District office and the WVDOH Central Office. The WVDOH will determine the route to be taken due to bridge and/or road restrictions. Out-of-state delivery route mileage will be calculated by the WVDOH utilizing "Google Maps" or a similar source for routing from the equipment owner's location of the equipment to the WV Stateline at which time, the Straight-Line Diagrams will be sourced at the WVDOH job site.

4. CONTRACT AWARD:

- 4.1 Contract Award:** The Contract is intended to provide Agencies with a price on all Contract Items. A Contract shall be awarded to all responsible Vendors that provide the Contract Items which meet all required specifications of this contract.
- 4.2 Pricing Pages:** Vendor should submit their bid by providing the proposed equipment information and the price, per District, on the Pricing Pages and the information requested on the Information Attachment Form.

Vendors need to be aware that each District has their own Pricing Page per the tab identified at the bottom of the excel spreadsheet/Pricing Page.

Per bid submissions, Vendors may bid multiple pieces of equipment by duplicating the Pricing Page to create a separate Pricing Page for each piece of equipment bid, per District.

REQUEST FOR QUOTATION
Power Earth and Rock Augers/Drills with Operators

If the base of operation is the same for all pieces of equipment proposed on the bid submission, only one Information Attachment Form is required per bid submission.

Vendor shall bid an Operation Rate, single hourly rate, for the drill unit proposed, which shall be full compensation for equipment rental and required operators up to a standard 40-hour work week. The cost of auger and core barrel resurfacing shall be included in the unit price bid.

For hours beyond 40 hours in a work week, Additional Charge for Overtime, the Vendor shall bid a rate per hour to cover overtime costs of labor only and that amount will be added to the operating rate for all additional operating hours beyond 40 hours.

The Vendor shall provide a per mile rate for Mobilization according to Section 3.1.4 of these specifications.

The Vendor shall quote additional pay items of Casing Pipe and Crane Mats, which may occasionally be requested by the WVDOH Engineer/Manager or his designee. Crane mats will meet minimum industry standard size of 4'x16'x8". Anything smaller will be considered cribbing and will not be paid.

Currently, there is no estimated lease/rental volume available for any item. No future use of the Contract or any individual item is guaranteed or implied.

Vendor should electronically enter the information into the Pricing Pages through wvOASIS, if available, or as an electronic document. In most cases, the Vendor can request an electronic copy of the Pricing Pages for bid purposes by sending an email request to the following address: angie.j.moorman@wv.gov.

4.3 Information Attachment Form:

The Vendor shall provide the Base of Operations as explained in 3.1.4.

The Vendor shall provide the name and years/months of experience of at least one Operator and at least one Helper according to Section 3.1.1.3 on the Information Attachment Form.

A bid submission SHALL include the Pricing Pages AND the Information Attachment Form. Any bid submitted without the Information Attachment Form WILL BE DISQUALIFIED.

REQUEST FOR QUOTATION

5. **DETERMINING LOW BID PER PROJECT:** To determine the low bid Vendor per project, the WVDOH District Engineer shall issue a Delivery Order to the low bidder based on type and size of equipment required for the project along with the proximity of equipment to the WVDOH job site at the lowest project cost. The projected cost is the estimated hours (Operation Rate) plus Mobilization cost and any additional requests of Casing Pipe and/or Crane Mats.

6. **ORDERING AND PAYMENT:**

6.1 **Ordering:** Vendor shall accept orders through wvOASIS, regular mail, facsimile, e-mail, or any other written forms of communication. Vendor may, but is not required to, accept on-line orders through a secure internet ordering portal/website. If Vendor can accept on-line orders, it should include in its response a brief description of how Agencies may utilize the on-line ordering system. Vendor shall ensure that its on-line ordering system is properly secured prior to processing Agency orders on-line.

6.2 **Payment:** Vendor shall accept payment in accordance with the payment procedures of the State of West Virginia. The State of West Virginia currently utilizes a Purchasing Card program, administered under contract by a banking institution, to process payment for goods and services. The Vendor must accept the State of West Virginia's Purchasing Card for payment of all orders under this Contract.

7. **DELIVERY AND RETURN:**

7.1 **Delivery Time:** The Vendor must notify the WVDOH District Engineer/Manager within five (5) days after receipt of the Delivery Order of their ability to perform the work requested on the Delivery Order. If the Vendor cannot agree to the work requested, the WVDOH District Engineer/Manager shall have the option to contact the next low bidder and follow the same direction.

Each Delivery Order shall provide the tentative date the project is to begin including the daily start and end time. Work on the project shall be continuous unless approved by the WVDOH District Engineer/Manager.

In the event of an emergency, the WVDOH District Engineer/Manager may require notification of a Vendor's ability to perform within 24 hours of their receipt of the Delivery Order.

NOTE: A Vendor's performance on any project may be considered when awarding subsequent Delivery Orders.

REQUEST FOR QUOTATION
Power Earth and Rock Augers/Drills with Operators

- 7.2 **Late Delivery:** The Agency placing the Delivery Order under this Contract must be notified in writing if orders will be delayed for any reason. Any delay in delivery that could cause harm to an Agency will be grounds for cancellation of the delayed order, and/or obtaining the items ordered from a third party.

Any Agency seeking to obtain items from a third party under this provision must first obtain approval of the Purchasing Division.

- 7.3 **Delivery Payment/Risk of Loss:** Standard order delivery shall be F.O.B. destination to the Agency's location. Vendor shall include the cost of standard order delivery charges in its bid pricing/discount and is not permitted to charge the Agency separately for such delivery. The Agency will pay delivery charges on all emergency orders if Vendor invoices those delivery costs as a separate charge with the original freight bill attached to the invoice.
- 7.4 **Return of Unacceptable Items:** If the Agency deems the Contract Items to be unacceptable, the Contract Items shall be returned to Vendor at Vendor's expense and with no restocking charge. Vendor shall arrange for the return within five (5) days of being notified that items are unacceptable or permit the Agency to arrange for the return and reimburse Agency for delivery expenses. If the original packaging cannot be utilized for the return, Vendor will supply the Agency with appropriate return packaging upon request. All returns of unacceptable items shall be F.O.B. the Agency's location. The returned product shall either be replaced, or the Agency shall receive a full credit or refund for the purchase price, at the Agency's discretion.
- 7.5 **Return Due to Agency Error:** Items ordered in error by the Agency will be returned for credit within 30 days of receipt, F.O.B. Vendor's location. Vendor shall not charge a restocking fee if returned products are in a resalable condition. Items shall be deemed to be in a resalable condition if they are unused and in the original packaging. Any restocking fee for items not in a resalable condition shall be the lower of the Vendor's customary restocking fee or 5% of the total invoiced value of the returned items.
