### Responses to Questions from Vendors

#### **Question 1**

Do you have an estimate for quantities needed by location? Considering the short contract period Upon award – 3/31/2023, there is little time to manufacture large quantities of material and to meet the required 10-day delivery window for orders received. To provide a responsible bid, it would be helpful to know how much material each location expects to need. This will help us determine which locations we can service.

#### **Answer 1**

Estimated quantities by location have been added to a revised Pricing Page (ATT A REV).

In regards to the 10-day delivery window, the time frame can be negotiated between the Vendor and WVDOH as noted in Section 6.2 which is listed below.

*6.2 Delivery Time: Vendor shall deliver standard orders within 10 working days after orders are received, or upon the date negotiated and agreed upon by both the WVDOH and the Vendor. Vendor shall deliver emergency orders within two (2) working days after orders are received. Vendor shall ship all orders in accordance with the above schedule and shall not hold orders until a minimum delivery quantity is met.*

#### **Question 2**

Do you have a delivery address for each location? Deciding if a location can take a tractor trailer delivery vs tri-axle delivery of material is helpful in determining the shipping cost and logistics of planning deliveries.

#### **Answer 2**

We have provided the physical addresses of delivery locations and indicated tractor trailer or tri-axle delivery access in Exhibit 2 (EXH 2). It was not possible to obtain all requested location information within the timeframe of this solicitation; however, the County and Delivery area are indicated and should be sufficient for determining a bid price without an exact address. The exact physical address and delivery details will be available to the vendor at the time the Agency Delivery Order is placed.
