RELEASE OF PERSONAL INFORMATION
FROM DMV RECORDS

FREEDOM OF INFORMATION ACT

Prior to September 1997, the DMV was required
by law to release personal information from its records
under the Federal and West Virginia Freedom of
Information Acts (or FOIA). Since September 1997, the
release of personal information by the DMV has been
restricted by the passage of the DPPA.
WHY CHANGE?

A California DMV employee gave a private investigator an actress’ address. The investigator gave the address to the stalker who then killed the actress. That prompted federal legislators to pass the DPPA. The Federal DPPA required that all states pass similar legislation. In response, West Virginia passed the West Virginia Uniform Motor Vehicle Records Disclosure Act.

The West Virginia Uniform Motor Vehicle Records Disclosure Act Is Commonly Referred To As DPPA.

West Virginia Code §17A-2A-1 through 14

WHAT IS DPPA?

DPPA stands for the DRIVER PRIVACY PROTECTION ACT enacted by the Federal Government in 1997 to restrict people from obtaining personal records from DMV.
INTENT of the DPPA . . .

is to permit access by all legitimate users of the personal information kept by the Division, while DENYING ACCESS TO THE IDLY CURIOUS.

WHAT IS PERSONAL INFORMATION?

ANYTHING that identifies a person, including his or her photograph or computerized image, Social Security number, driver identification number (driver’s license number), name, address (excluding the five-digit zip code), telephone and medical or disability information …

West Virginia Code §17A-2A-3(f)

DPPA

Under the DPPA, the Division MUST SELL or release personal information individually or in bulk form from its records to permitted users.
PERMITTED USERS

A person or company must be a permitted user as defined under DPPA to receive personal information from DMV records.

TO PERMIT OR NOT TO PERMIT … THAT IS THE QUESTION!

Customers who want copies of their OWN driving records are permitted users.

Others may be permitted users. To determine if you are a “permitted user” you must complete the appropriate form and mail it to the Driver Services or the Information Services Sections.
DPPA

The Division is PROHIBITED from releasing PERSONAL information to anyone who does not qualify under DPPA.

EXAMPLES OF PROHIBITED VENUES:

NEWS MEDIA
- television stations
- radio stations
- newspapers
- internet
- e-mail

Even if a person or company qualifies as a permitted user, personal information CANNOT BE RELEASED OR RESOLD for MARKETING, SURVEYS or SOLICITATION (unless an “opt in” form is completed).
DMV FINGER IMAGING

DPPA prohibits the disclosure and use of finger images obtained by the Division. The finger images cannot be used for any purpose except processing and issuing a driver’s license.

West Virginia Code Section §17A-2A-4

ABSOLUTELY
NO personal information can be given over the telephone.

Personal information contained in previously issued car titles cannot be released, even to the new owner of the car. Vehicle information can be released, but personal information about the owner cannot be released except to permitted users. If you would like that information, you must contact the local law enforcement agency or insurance carrier.

NOTE: The DMV will mail your form to the last address of record. The DMV can NOT guarantee that your message will be received by your intended party or that you will receive a response. The fee is non-refundable. The DMV retains the right to refuse sending obscene or threatening messages.
