Subject: Secondary Road Program - Priority List / Needs
Attachments: Secondary Road Program.xlsx
Importance: High

Per Governor Justice's instructions at today's meeting, please ask each of your county administrators to provide the following information:

1. Secondary roads in their county that they feel need immediate attention.
 - a. When referring to secondary roads for this Program, please note that this includes any road that is not a four-lane highway / interstate. If they feel that two-lane US or WV routes should be on this priority list, they should list them.
 - b. Roads should be listed in priority with one being the highest. When listing in priority order, they should consider the ADT of the route, number of residences, school bus route, etc.
2. Equipment needs to provide the maintenance on their suggested priority list of roads.
3. Additional manpower needs to provide the maintenance on their suggested priority list of roads.

County administrators should feel free to submit their lists and information in any format they would like. However, it is asked that each District Headquarters complete the attached spreadsheet for each county in their district. The first tab on the spreadsheet should be their priority list of roads. The second spreadsheet should include the equipment and manpower needs. In addition to submitting the spreadsheets, please send to CH, attention Sasha Danberry, the hard copy of the lists and information each county supervisor submits. Whether they submit it via a quick email, on a piece of paper, etc., Governor Justice would like to see those original documents. All information submitted on the spreadsheets by the District Headquarters and the original documents will be compiled by my office.

As Governor Justice asked that this information be provided within 72 hours, please ensure that all spreadsheets and original documents are submitted to Sasha Danberry no later than 2:00 p.m. on Friday, March 22, 2019.

Thank you for your assistance with this Program. As always, we look forward to working with everyone in continuing to provide safe and efficient roadways for all citizens and travelers in the State of West Virginia. If you have any questions or need additional information, please feel free to contact my office.

Sasha D. Danberry

Administrative Services Manager
Office of the State Highway Engineer
and Deputy State Highway Engineers
West Virginia Division of Highways
(304) 558-9212

* Keep originals from co. orgs.
* Due by 2pm Friday.
↳ spreadsheets & originals.
