

## Role: WV EXT Sub Payment

## **Key to Actions Menus:**

Global Actions menu (At the top of the screen)

Component Actions menu (On the heading)

- Row Actions menu (On the row)

## **Background:**

 After the agency makes a payment to the prime contractor for work on the contract, the prime contractor is in turn responsible for paying the subcontractors, suppliers and other vendors used for the work, and they must in turn pay other subcontractors and vendors. The agency monitors all of these payments to make sure they are made within the federal and state guidelines for prompt payment.

## **Recording Tiered Subcontract Payments as a Subcontractor:**

• Note: These steps are similar to adding a subcontractor payment as the prime contractor. You can input the subcontractor payment for however many subcontractors there are. It is expected that if the prime needs to input the subcontract payments by choosing the specific payment that the agency paid that they used to pay the subs.
