NOTES

The Standard Curb Taper, Class I, shall be used at the ends of all Plain Concrete Curbings, unless otherwise called for on the Plans.

The Standard Curb Taper, Class II, shall be used at the ends of all Combination Curb and Gutter, and all Integral Concrete Curbings, unless otherwise called for on the Plans.

The details as shown for Sidewalk and Curb Treatment at Driveways are to be utilized unless otherwise called for on the Plans.

Section A-A details a 6" transition length in the height of the curb where driveway and Type IV curbing are encountered.

Section D-D & C-C details additional depth of sidewalk at driveways and section D-D details standard depth sidewalk.
