

Upcoming Public Meeting

Thursday, January 17, 2019 / 4:00 PM to 7:00 PM
Culloden Elementary School
2100 US Highway 60, Culloden, West Virginia

Culloden Interchange Project: Informational Public Meeting State Project: U306-64-31.65 00

Join us Thursday, January 17th, 2019 at the Culloden Elementary School for an Informational Public Meeting for the Culloden Interchange Project. Representatives from the West Virginia Division of Highways and Federal Highway Administration will be available between 4:00 pm and 7:00 pm to answer questions and listen to ideas or concerns about the proposed project. **There is no formal presentation planned; however, project maps and other information will be on display for review.**

Upon request, WVDOH will provide reasonable accommodations to afford an individual with a disability an equal opportunity to participate. Please contact us at (304) 558-3931, or (800) 982-8722 (voice to TTD), or (800) 982-8771 (TDD to voice).

Project Summary

The Culloden Interchange Project began in the late 1960s with interchange ramp design and right-of-way acquisition but did not proceed. The current focus on the interchange and associated connector to US 60 resulted from growing concerns regarding increased traffic and congestion on Interstate 64 between Hurricane and Milton, West Virginia. The project represents an additional outlet for round-trip daily traffic moving back and forth from the community of Hurricane to Charleston. In 2015, the West Virginia Division of Highways (WVDOH) developed a thorough analysis of construction impacts associated with this interchange, including recommendations for local road improvements and revised traffic patterns that would ease local consequences of interchange construction. WVDOH welcomes your input on potential environmental concerns, including, among others issues, impacts to natural and cultural resources as well as social and economic impacts.

Comments are due by February 19, 2019 and can be submitted at the meeting or sent to:

Mr. R.J. Scites, P.E.
Director, Engineering Division, WVDOH
1334 Smith Street
Charleston, WV 25301

Comments can also be submitted via our website at:
