Line	Comm Ln Desc	Qty	Unit Issue	Unit Price	Ln Total Or Contract Amount
1	Pump water/oil separator 1500 gallon/Judy Gap Location				5250.00

Comm Code	Manufacturer	Specification	Model #
20121315			

**Commodity Line Comments:** Volume pumped will not be 1,500 gallons at most of these sites. The sizes of these tanks vary by location. Some are 500 gallons, some are 1000 gallons, etc. Rather than a lump sum bid per site it would be to your advantage to be invoiced on a "per gallon" unit rate based on how many gallons are actually pumped. We would be willing to accept contract for rate of \$3.50 per gallon but this system will not allow anything but a lump sum bid so we are bidding \$3.50 per gallon multiplied by the volume listed on the specification.

**Extended Description:**

Pump 1500 gallon tank/oil water separator, minimum of one time a year at Judy Gap location.
