## ARFQ DOT250000040 Bridge Cleaning & Painting by Vendor

### **Responses to Questions from Vendors**

#### **Question 1**

In selecting the response, I noticed under section 2 Respond to Lines are we to submit our unit prices for each line number? And what is the purpose for the Delivery Days ?

#### **Response 1**

Vendors do not enter the prices in the wvOASIS system directly. Vendors should only list their prices on the Pricing Pages, Attachment A (ATT A).

Section 4.2 of the contract outlines the requirements for how vendors are supposed to provide their bid prices, and Section 4.2.3 states "Vendor entries of bid prices or other notations made in wvOASIS commodity line descriptions will not be considered for bid evaluation or award."

#### **Question 2**

There is an excel attachment (pricing page attachment A) to fill out our unit prices for each district and or all districts. Do we just need to fill that out and attach it to our response submittal or do we need to fill out the attachment and also fill in Section 2 Respond to Lines ?

#### **Response 2**

Vendors must complete the Pricing Pages, Attachment A, to have a responsible bid submitted for consideration. Any bid prices entered in OASIS lines will not be considered for bid evaluation. Please see the response to Question 1 above.

#### **Question 3**

For the containment of debris item per SF. Does the SF pertain to the SF of painting. For example, if the project is 1,000 SF of painting structural steel but the containment area is (20' x 20') 400 SF does the bid per SF cover the containment area of 400 SF or the amount of SF for painting ?

#### **Response 3**

The containment square footage pertains to the square footage of the painting.

#### **Question 4**

Questions regarding the noxyde coating. Spec states two coats are required and should be built into the bid price. Should the bid price be for both coats, per square foot or square foot price for each coat?

#### **Response 4**

For Mathis Coating Noxyde Primer Plus, vendors should include both coats in their bid price per square foot and may not charge separately for the first and second coats.

#### **Question 5**

I wish to submit pricing for three line items and wanted to be sure that delivery costs are allowed to be excluded, especially since we do not have specifics of delivery locations or quantities. Lines 4, 26, and 27

#### **Response 5**

The intention of this contract is for the vendor to perform the labor and provide the materials for the application of listed contract items. Products are not bid individually as materials only.

Vendors can refine their bid prices, per district, to have a more concise geographical area to base their bid prices on. Vendor shall factor into their bid prices all equipment, materials, delivery, and labor required to provide Contract Items. Any expenses related to delivery should be factored into the vendor's contract items bid price or the Mobilization rate; no separate delivery expenses are allowed.

Vendors may submit a separate set of bid pages with separate bid prices for each district they are bidding on, if they choose to differentiate their bid prices from one district to another. This allows vendors to customize their bid prices on each area bid, if needed.

#### **Question 6**

Do you have a shareable or public list of those interested in bidding this project so that I can properly share the materials cost with those contractors before the bid is due?

#### **Response 6**

No, this is a public bid for a Purchase Order contract and there is not a list of pre-qualified vendors.

If interested in working with another vendor offering these services as a supplier, one could search the wvOASIS Vendor Self Service Portal and review the bid/bid closing history to see when this type of work has been bid out in the past, and then cross reference that information to the DOH bid pages to see who submitted bids at that time, as this is public information. Past bids do not have any impact on the current solicitation but could be used for your purposes for market research purposes.

<https://www.wvoasis.gov/>

<https://transportation.wv.gov/highways/maintenance/Pages/Agency-Bids-Received.aspx>

### **Question 7**

Can I submit only 3 line items with pricing? In other States, their own staff often apply my products and I give them the same bid pricing, so your State employees would already know the pricing for any internal projects with my products that would be entered into your system.

### **Response 7**

No, this contract does not allow the bid of materials only. This is a services contract for the vendors' labor and materials for Bridge Cleaning and Painting. Contract items procured as materials only and then applied by WVDOH personnel are procured separately, outside of this contract.

### **Question 8**

In reference to ARFQ 0803 DOT2500000040 Bid item 23 caulking should be linear feet LF in lieu of SF. Please clarify. Thank you.

### **Response 8**

Thank you for bringing this to our attention. Contract item 23 for Caulking should be bid by Linear foot. Please use the revised Pricing Pages, Attachment A, (ATT REV) to submit your bid.
