- 3.4 Sampling and Testing** for quality of all items furnished in this contract will be the responsibility of WVDOH. Minimum frequency of sampling and testing for quality on all materials (other than those sources already covered by the WVDOH's "commercial source" approval) will be at least one sample every six days of shipment (or if tested during production, at least one sample every six days of production). All samples taken by the Vendor shall be by a Certified Aggregate Sampler or Certified Aggregate Inspector. Tests shall be performed by a Certified Aggregate Inspector. Other minimum frequencies shall adhere as follows:

<u>Property</u>	<u>Frequency</u>
Gradation, Delivered Material	One sample per each day of shipment or if tested during production, one sample per each day of production. See Note 1 below.
Gradation	(A-1 Source) One sample per each week of shipment per MP 700.00.52; or if tested during production, one sample per each day of production. See Note 1 below. (A-2 Source) One sample per 250 tons shipped and a minimum of one per week shipment.
Moisture Content	See NOTE 2 below.

NOTE 1: Vendor will be responsible for providing test results attesting to the gradation of materials delivered. Gradation results from the production source will be acceptable.

NOTE 2: In the event visual inspection of the aggregate indicates excess or unusual moisture beyond what is normally expected in the aggregate, the WVDOH reserves the right to determine the moisture content by standard methods in accordance with established Division procedures. If this becomes necessary, the net weight of the portion represented will be adjusted utilizing the test results obtained by the WVDOH in accordance with MP 700.00.22. Abrasives and Steel Slag Items will be considered fine aggregate as outlined in MP 700.00.22.

- 3.5 Acceptance Plan:** Per Standard Specs 703, crushed stone shall consist of particles of clean, hard, tough, durable rock, free from adherent and foreign material. Acceptance for gradation shall be based on test results provided and certified by Vendor to be true test results and representative of the material supplied to WVDOH, on consecutive

REQUEST FOR QUOTATION
Stone & Aggregate with Delivery to Non-Established Locations

random samples from a lot. A lot shall consist of a quantity of material represented by an average value (not to exceed 5 sub-lots). A sub-lot shall consist of the quantity of material represented by a single gradation test. In the case where only one sample is taken to represent the total quantity, the sub-lot and lot will be considered the same. Frequency of sampling and testing shall be in accordance Vendor's quality control plan outlined in MP 700.00.51. Vendor shall provide the gradation test results to the WVDOH within 72 hours.

3.5.1 Sampling Testing & Evaluation: Per Standard Specs 704, the Agency reserves the right to have delivered materials sampled, tested, and evaluated. If material fails to comply with WVDOH quality requirements, the Agency, at its own discretion, shall notify Vendor that the nonconforming material will not be accepted and shall be removed and replaced at Vendor's expense, or at the option of the ordering Agency may be left in place with reduced payment.

At the discretion of the Agency, material failing to comply with the quality requirements will not be accepted. Acceptance for gradation shall be based on test results, provided and certified by Vendor to be true test results and representative of the material supplied to WVDOH, on consecutive random samples from a lot. A lot shall consist of a quantity of material represented by an average value (not to exceed 5 sub-lots). A sub-lot shall consist of the quantity of material represented by a single gradation test. In the case where only one sample is taken to represent the total quantity, the sub-lot and lot will be considered the same. Frequency of sampling and testing shall be in accordance with the Vendor's quality control plan outlined in MP 700.00.51. Vendor shall provide gradation test results to WVDOH within 72 hours.

Gradation test results shall be averaged in accordance with MP 300.00.51, as amended. When the average falls outside the applicable limits, the lot of material represented thereby will be considered non-conforming to the extent that the last of its sub-lots is non-conforming. When a lot of material is nonconforming, then the last sub-lot contained therein shall have its degree of non-conformance determined as set forth below.

3.5.2 When a sub-lot of material is to have its price adjusted, the percentage point difference between the non-conforming test value and the specification limit shall be determined for each sieve size determined to be non-conforming, and this value shall be multiplied by its appropriate multiplication factor as set forth in Table 1. The total measure of non-conformance of an individual sub-lot is the sum of all non-conformances on the various sieve sizes of that sub-lot. However, in no case shall a sub-lot of material have its price adjusted more than once, and the first adjustment determined shall apply. When the total degree of non-conformance has been established and it is 12 or less, the material will be paid for at an adjusted contract price as specified in Table 2.

*WVDOH will make a special evaluation of the material and determine action.

3.5.3 If Vendor delivers a specific quantity of material from a stockpile, and said quantity is less than the total quantity contained in the stockpile and it has been determined from his certified test data that a non-conforming sub-lot(s) is contained in said stockpile, the price reduction shall be calculated for the specific quantity:

For a non-conforming sub-lot, the percent price reduction shall be determined as set forth above. The quantity of the non-conforming sub-lot shall then be calculated as a percent of the Total of material contained in the stockpile. To determine the price reduction on the specific quantity delivered, multiply the percent of non-conforming material contained in the stockpile by the quantity delivered, and reduce this quantity by the percent price reduction as determined.

Example: If it has been determined that a stockpile of 100 tons contains 10 percent failing material, and said material is to have its price reduced by 4 percent, then the actual quantity delivered, say 15 tons, will be multiplied by 0.10 (10 percent failing material) which equals 1.5 tons. These 1.5 tons will thus have its price reduced by 4 percent. The remaining 13.5 tons will be paid for at full contract price.

$$TD \left(1 - \frac{PQn}{100Qt} \right) = AP \text{ (price to be paid after adjustment)}$$

REQUEST FOR QUOTATION
Stone & Aggregate with Delivery to Non-Established Locations

WHERE T = tonnage delivered
 P = percent price reduction
 D = cost per ton
 Qn = quantity of non-conforming sub-lot(s)
 Qt = quantity of total stockpile
 AP = adjusted payment

If two sub-lots are non-conforming within the stockpile, calculate each separately for the adjusted payment on the quantity delivered (as above). Add these two adjusted payments together and subtract from the total price before adjustment for tonnage delivered (TD).

If three sub-lots are non-conforming calculate each separately and subtract twice the price to be paid before adjustment for tonnage delivered, and so on.

Example:

$(AP1 + AP2) - TD =$ Final price to be paid after adjustments

OR

$(AP1 + AP2 + AP3) - 2 TD =$ Final price to be paid after adjustments

WHERE: AP = price to be paid after initial adjustment for one non-conforming sub-lot determined as above.

If material is delivered from a continuous stockpile being continuously replenished while having material removed for these applications, certification shall be based on the shipment samples.

- 3.5.4** For Aggregate for Base/Subbase course, material shall consist of gravel, crushed gravel, crushed stone, crushed slag, or any combination of these materials uniformly blended to conform to 704.6.2, with exception: Los Angeles abrasion is not required for blast furnace slag. Natural or manufactured sand may be used as a component of the blend. Crushed slag shall adhere to 703.3 with exception. When gravel is to be used in stabilized (treated) base or subbase construction, it need not be crushed. When used in an unstabilized base or subbase construction, the gravel shall be crushed as specified. When Vendor elects to blend materials, each component of the blend shall meet 704.6.2. Blade or road mixing will not be allowed. When shoulders are specified, natural sand may not be used as a shoulder component.

Vendor shall adhere to Standard Specs 704 and sampled per MP 700.00.06, as amended. On the ATT A, the Vendor shall provide its pricing for materials plus delivery (F.O.B. destination to the Agency's specified locations), from Vendor's sourced plant/storage sites. The low bid Vendor will be determined at the time of need, as per Section 6 of these Specifications.

Vendor can request the electronic copy of the spreadsheets by sending an email request to the buyer: Kristy.E.James@wv.gov.

Submitting Pricing Pages from a prior years’ contract, in lieu of the current Pricing Pages included for this solicitation, shall result in the disqualification of the Vendor’s bid.
- When providing its pricing on the ATT A, Vendor should take into consideration any applicable merchant credit card fees in the event that the Agency’s payment to Vendor is via credit card.
- **OASIS BID SUBMISSION NOTES:** The pricing provided on the ATT A shall be used as Vendor’s final price by the Agency when performing bid evaluation and award determination, (regardless of any price or details the Vendor may enter into the commodity lines within OASIS). Delivery Order only. No Delivery Order from prior contracts should be held open by any District or Vendor longer ten (10) working days after the announcement of the effective date of use for the new contract. This directive is issued to assist the Agencies and Vendors when fulfilling open Delivery Orders only. 6. DETERMINING LOW BID:

At the time of need, the Agency will evaluate the ATT A pricing and materials source locations from each contract, determine the total price for Contract Items by location, and order from the Vendor whose bid is low for material Items *plus* the Haul by Vendor, Items. Haul distance shall be computed by the Agency using the **most** direct suitable route from Vendor's sourced storage site, to the mid-point of the non-established Agency location as specified.

7. ORDERING AND PAYMENT:

7.1 Ordering: Any verbal communications to initiate or make modifications to a project from this contract are not acceptable as a Delivery Order. At the time of need, the Agency may choose one or more of the Contract Items to complete an individual project as shown by Agency's written instruction on each Delivery Order. The Agency reserves the right to request any one or a combination of awarded Items at the lowest overall total cost to the Agency.

7.2 Delivery Order: The ordering Agency will generate a blanket Release Order WV-39 to officially release the ATT A goods/services Items from this purchase order Contract. Once complete, the Delivery Order shall be sent to Vendor via email, fax, postal mail, or delivery. and Agency should enter an ADO into wvOASIS at this time. Agency should thoroughly and carefully convey expectations, which may require the Agency to call Vendor and discuss details prior to creating the official *written* Release Order, detailing ATT A Contract Items and pricing, quantities, project location, materials source location, start and completion timeline, and any special instruction regarding goods/service delivery required.

Entry of ADO in OASIS: To facilitate Vendor with creation of its invoice, meet Agency accounting requirements, and enable processing of payment (in any form), the Agency should take all necessary steps to generate the ADO and enter it into wvOASIS at the same time it issues the WV-39 Release Order to the Vendor, to avoid payment processing issues due to date conflicts.

7.2.1 Revisions: As the Agency's work-needs dictate, the Agency reserves the right to make revisions and change orders to previously issued Delivery Order(s), to be done in the form of subsequent Delivery Order(s) and sent to the Vendor.

Contractual failures shall be subject to Liquidated Damages, and/or Default Remedy Costs. The Agency reserves the right to hold the failing Vendor responsible for the failure/damage-costs incurred by the Agency for remedying the contractual default. PURCHASING AFFIDAVIT

CONSTRUCTION CONTRACTS: Under W. Va. Code § 5-22-1(i), the contracting public entity shall not award a construction contract to any bidder that is known to be in default on any monetary obligation owed to the state or a political subdivision of the state, including, but not limited to, obligations related to payroll taxes, property taxes, sales and use taxes, fire service fees, or other fines or fees.

ALL CONTRACTS: Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

EXCEPTION: The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Employer default" means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

AFFIRMATION: By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. Code §61-5-3) that: (1) for construction contracts, the vendor is not in default on any monetary obligation owed to the state or a political subdivision of the state, and (2) for all other contracts, that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.
