Responses to Questions from Vendors

**Question 1:**

I believe there is need for clarification on the Mobilization for Profiling/Milling (Item 61) or possibly an additional item added for Fine Milling... Item 61 as described in Section 3.3.13.2 is only applicable to contract Items 49-60, however there also needs to be a mobilization items that corresponds to the "fine Milling" contract item 69-80. Items 69-80 would still require the contractor to mobilize their equipment to the job site however the contract seems to lack the language to enable a payment method for such mobilization.

This maybe the intention of the last sentence "Vendor shall provide pricing inclusive of laydown services" in section 3.3.20, however this sentence is unclear on its intention as there is no "Laydown services" in Fine Milling... is this to mean mobilization? If the intention is to include Mobilization incidental to the Fine Milling this may need to be clarified, also industry would like to see a separate Mobilization item for fine milling as to not inflate the item cost for milling, this we feel would also benefit the DOH, as to get the most accurate costs.

**Answer 1**

It is not our intention for Fine Milling to not have a separate mobilization Contract Item. Per Standard Spec 415.1.2, Fine Milling "shall be used when the Division intends to overlay the milled surface with a thin lift asphalt course, or as otherwise shown on the plans." When Fine Milling is requested, it should be in conjunction with some laydown service. The laydown services qualify for mobilization for the vendor to deploy all their necessary equipment and personnel to the project site. It is not our intention to pay Fine Milling mobilization separate as they should already be mobilizing for the laydown portion of the project.

**Question 2:**

Could the DOH's explain their intent of Section 3.3.4 ESAL Surcharge, Contract Items 24 and 25? It is slightly confusing as written... people are calling me for an explanation, and I think it needs to be addressed globally to all bidders.

I think the hold up is how it is written... really it should be stated in regard that dolomite needs to be replaced with a secondary aggregate in 402 items that have higher ESAL counts than 3million...The producers are never required to use Dolomite, however the produces are limited on how much dolomite they are allowed to use when ESAL counts exceed 3million. At 3 million EASLS the specifications call out that Dolomite may be used at 100% of the coarse fraction. However, at >3million EASLS Dolomite is only allowed to be used at 50% by weight of the coarse aggregate and other potentially more expensive stone would have to be utilized.

**Answer 2:**

Thank you for bringing this to our attention. We have revised the Contract Specifications, to be included with this addendum, in Section 3.3.4 in the Asphalt Materials, Delivery & Labor by Vendor by County solicitation, to the following language:

**ESAL Surcharge, Contract Items 24 and 25**, is a surcharge to compensate Vendor for supplying other necessary aggregates or mix types when the asphalt design mix requires an ESAL rating of 3 million or greater. Mixes requiring less than 3 million ESAL's do not qualify for this surcharge.

## Responses to Questions from Vendors

**NOTE: Question was originally asked and responded to in Addendum 1, issued 9/30/2022. The initial response given in Addendum 1 has been revised.**

### **Question 1:**

I believe there is need for clarification on the Mobilization for Profiling/Milling (Item 61) or possibly an additional item added for Fine Milling... Item 61 as described in Section 3.3.13.2 is only applicable to contract Items 49-60, however there also needs to be a mobilization items that corresponds to the "fine Milling" contract item 69-80. Items 69-80 would still require the contractor to mobilize their equipment to the job site however the contract seems to lack the language to enable a payment method for such mobilization.

This maybe the intention of the last sentence "Vendor shall provide pricing inclusive of laydown services" in section 3.3.20, however this sentence is unclear on its intention as there is no "Laydown services" in Fine Milling... is this to mean mobilization? If the intention is to include Mobilization incidental to the Fine Milling this may need to be clarified, also industry would like to see a separate Mobilization item for fine milling as to not inflate the item cost for milling, this we feel would also benefit the DOH, as to get the most accurate costs.

### **Answer 1 REVISED RESPONSE**

We have reconsidered your request, and it has been decided that Vendor may charge the same mobilization for Fine Millings as they charge Pavement Profiling/Milling.

**Mobilization - Pavement Profiling/Milling, Contract Item 61 on Attachment B (ATT B)** may now be used for both types of milling mobilization. The Contract Specifications have been revised, and are included with this addendum, to reflect the following changes:

- The statement in **Section 3.3.20** of the Contract Specifications "Vendor shall provide pricing inclusive of Laydown services" has been removed.
- **Section 3.3.13.2** has been updated to allow Fine Milling mobilization for **Contract Item 61:**

**3.3.13.2 Mobilization for Profiling/Milling, Contract Item 61** listed on **Attachment B Mobilization Pricing Pages (ATT B)**, includes all preparatory operations including movement of necessary personnel and equipment onto the project site to begin the profiling or milling or fine milling work. Only one

Mobilization for Profiling or Milling per Delivery Order shall be paid when for Pavement Profiling/Milling or Fine Milling, **Contract Items 49 through 60, or Contract Items 69 through 80.**
