

Budget Overview

Materials & Construction Conference

March 6, 2024

Presented by:

Carla P. Rotsch - Transportation Business Manager

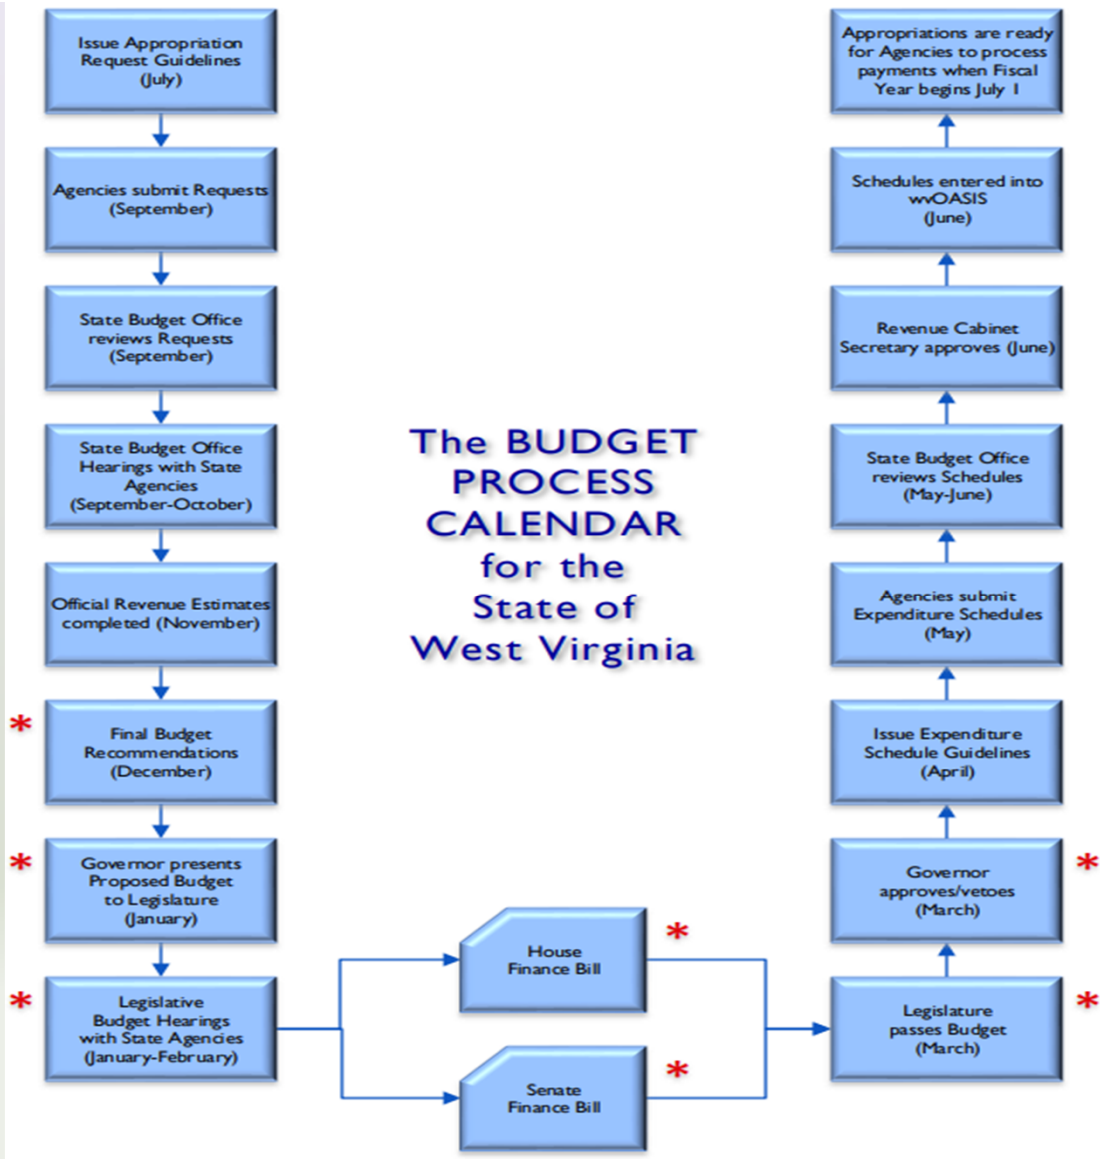

Chris Kessell – Assistant Director - Programming

What is the purpose of this presentation?

- *Discuss the overall budget process*
- *Provide specific information about the federal appropriation lines*
- *How transactions in the HUB relate back to the budget*

* Following a regular gubernatorial election, these steps in the budget process are delayed by one month.

Budget Process Key Dates

- **July** – begin budget preparation for next fiscal year, submitted by September 1.
- **October** – State Budget Office Hearings
- **October-December** – current year supplemental requests and final budget recommendations
- **January-February** – Budget Hearings
- **July** – approved budgets become available

Did You Know?

- **How is the State Road Fund used?**
- **The DOH is a Special Revenue agency**
- **The SRF for the DOH is an Appropriated budget**
- **Our budget gives us Spending Authority**
- **We have dedicated revenue sources**
- **We do not get all of our “cash” on July 1st**
- **Our “cash” does not go away on June 30th**

Federal Projects

- **Federal Projects must have a program and phase for expenses to be charged against them appropriately**
- **This is what enables us to bill Federal Highways for reimbursement**
- **We must have enough spending authority to pay for expenses, then bill for reimbursement.**

Bonds have different Fund numbers

- ***GARVEE Bonds (9031, 9033)***
 - ***General Obligation Bonds (9032, 9035, 9036)***
 - ***Turnpike Bonds (9034, 9037)***

HUB Project Manager Dashboard and Weekly Reports

This tool developed by the Programming Division can be used in a variety of ways to make the job of tracking both groups of and individual projects easier and more efficient.

The Project Manager Report can deliver a list of projects by Project Manager, District or Division control, Development Responsibility, District or County location, days until Phase End Date expiring, available balance for participating and non-participating funds at the project level, Family Code, Phase Status, and much more.

How to find the Project Managers Report.

Select 'REPORTS' located within the left navigation bar and then 'View Report' for the Project Managers Report located 6th from the bottom.

A1																				

Estimated Project Update - Notification of all estimated project phases with past due and coming due shortly start dates. Used to keep phase start dates in line with expectation. These dates are extremely important for the CH meeting and keeping the STIP accurate.

Past Due Report - Notification of all authorized phases with expired phase end dates and those coming due shortly. Used to keep expected completion dates for all phases accurate.

Available Balance Percentage Report - This report gives the remaining budget amount for all phases with end dates coming due within the next 12 months. This data can be used to compare remaining balances with expected time to completion to make sure they align. Eg: A phase has 98% of its budget expended but still has 18 months of design work remaining would potentially need a Change Request requesting additional funding.

OASIS Effective To Date Report - All project phases with OASIS Effective To Dates that are past due, coming due within 30 days, and 30 to 90 days. Used to monitor if you will be able to process charges on project phases that are still active.

FMIS Project End Date Report - All project phases with FMIS Project End Dates (PED) that are past due, coming due within 30 days, and 30 to 90 days. Used to monitor if WVD OH will be able to be reimbursed for charges made on these federally funded projects.
