

AASHTO PRODUCT EVALUATION AND AUDIT SOLUTIONS (APEAS) EVALUATED ASPHALT RELEASE AGENTS

This is not an Approved Products List. Products listed have been evaluated by APEAS. Section 401.9.7 of the Standard Specifications requires an Asphalt Release Agent to be evaluated by APEAS. In addition, for mixtures using neat binders, the ARA producer/supplier must certify the product as harmless to the mix. For mixes using polymer modified binders, the release agent must be recommended by the binder supplier.
