

**WEST VIRGINIA DIVISION OF HIGHWAYS  
 ACCOMODATION OF UTILITIES MANUAL  
 STUDY GUIDE**

#	ANSWER	QUESTION
1		True or False? Relocation costs of privately owned public utilities, located within State highway right-of-way by permit, are eligible for reimbursement if the costs are the result of maintenance activities by the Division.
2		True or False? Highway projects which involve railroads, such as grade crossing, overhead bridge, railroad underpass, and highway parallel/adjacent to the railroad will require railroad agreements.
3		In Appendix A, Figure 3, a Type C trench is used for a _____ roadway and requires a minimum backfill of _____ inches of cover around the pipe.
4		In Appendix C, the minimum vertical clearance of wire above the ground for a 15,000 Volt to 50,000 Volt overhead line is _____ feet clearance if the line crosses the roadway.
5		In Appendix A, Figure 2, the minimum depth of the top of the utility pipeline casing through a roadway section with a ditch or curb shall be placed _____ feet below the lowest portion of the ditch line.
