Responses to Questions from Vendors

**Question 1**

On the bid template some of the extras/admixtures are listed as LB's or Oz vs CY:  
Verses how we submitted the bid last year:  
Is it allowable for us to submit those items per CY?

**Answer 1**

Contract Specifications and Contract Items often differ from one contract solicitation to another, from one year to another. The unit of measure bid must be the unit of measure that is requested on the Pricing Pages, Attachment A, of the current solicitation. Section 4.2.3. of the Contract Specifications states "Changing a column or row description, Contract Item description, or unit of measure on the **ATT A**, shall result in the disqualification of Contract Item bid on the altered line."

As stated within the Pricing Pages, above the Contract Items list on ATT A: - Contract Items 53-57 are components of a CY mix design added as oz. per 100# of cementitious material.

**Question 2**

For the CLASS DC that has been added to the sheet for this year, does that refer to the 7.5 Bag or the 8.5 bag mix, the state has both options? I assume it would be the 7.5 Bag mix and we would charge for the extra cement on the 8.5 bag when requested or required, please clarify?

**Answer 2**

Per Standard Specifications Section 601.3.1-Mix Design Requirements, Class DC would be the 7.5 bag and any additional cement could be charged separately, if needed.

**Question 3**

If we are the sole bidder in a county does that make us the primary supplier?

**Answer 3**

Per section 4.1 of the Contract Specifications, the contract award will be as follows:

**“Contract Award:** The Contract is intended to provide Agencies with a purchase price on all Contract Items. All qualified responsible Vendors shall be awarded a contract for those Contract Items bid which meet all mandatory requirements of this Contract, including Vendors whose plants are pending MCS&T approval. For plants pending approval, no ADO shall be issued for Contract Items until the plant has become approved by MCS&T. “

Also, in the Low Bid per project section 4.1.1 of the Contract Specifications, it states **“Determining Low Bid Per Project:** To determine the low bid vendor for individual projects, the WVDOT District Engineer or their designee will calculate the lowest overall total cost of the Contract Items required for individual projects, including additional haul costs from the Vendors nearest approved plant location to the WVDOT project site. A written ADO will be issued to the Vendor with the lowest overall total cost.

WVDOT reserves the right to request any one or combination of Contract Items for which bids are awarded at the lowest overall total as set forth in this section.”

#### **Question 4**

Increased in cement in pounds of a CY Mix Design), this is being asked to price in LB's, normally done per CY per Sack.

#### **Answer 4**

Please see response for Question #1.

#### **Question 5**

Water-Reducing Set Retarder) (Water Reducer) these are being asked to price by the OZ. We can price by the OZ on the bid the computer is only set up to bill by the CY. Is this a problem?

#### **Answer 5**

At the time of invoice, the unit of measure on the invoice must match the unit of measure on the contract Pricing Pages, ATTA, or the payment will not be approved in our system. Vendor may have to manually adjust their invoices to match contract unit of measure and bid.

#### **Question 6**

Accelerating Admixture) 1. Which one Chloride or non-chloride accelerators 2. Also being asked to bid by the oz, computer can only bill by the CY is this a problem?

**Answer 6**

- 1) Chloride/non-chloride accelerators are no longer listed as contract items. Accelerating admixtures must be an approved product from the Type C Accelerating Admixtures APL.
- 2) See response for #5 above.

**Question 7**

Type F Water Reducing, High range Admixtures) also being asked to bid by the oz, computer will only bill by the CY.

**Answer 7**

See response for #5 above.

**Question 8**

Fiber, per pound in a CY mix design) which type of fiber are you asking for Type M or Type F? this also is normally billed per CY.

**Answer 8**

The Contract Specifications are not specific as to what type of fiber. Fiber shall be in accordance with the Standard Specifications and Supplemental Specifications unless directed otherwise by the WVDOH at the time order.

Ready Mixed Portland Cement Concrete and CLSM  
ATTACHMENT A PRICING PAGE (ATT A)

**Vendor Instructions:** Vendor shall mark with an "X" beside the counties that correspond with the Source Plant(s) bid prices on this page. If Vendor has varied pricing per county or per plant, Vendor shall complete a separate set of Pricing Pages (ATT A) for each county pricing set or each plant's pricing. **Failure to include ATT A and ATT B will result in the disqualification of the affected bid.**

This is a multiple vendor award contract. All qualifying vendors meeting the contract specifications will be awarded with a contract. The low bid vendor per project will be determined at the time of need, as per Section 4 of the contract specifications. Estimated quantities are not available.
