This SFEIS consists of a proposal to construct an approximately 9-mile long segment of the Corridor H highway between the termini of Parsons and Davis, West Virginia. This supplemental FEIS was completed pursuant to the February 2000 Settlement Agreement with Corridor H Alternatives, et al. The proposed Parsons-to-Davis Project would provide a four-lane highway with partial control of access on new and existing location. This study evaluates the preliminary engineering and the potential impacts to the economic, social, cultural, natural and physical environment associated with the construction of the proposed project.

A Federal agency may publish a notice in the Federal Register, pursuant to 23 USC §139(l), indicating that one or more Federal agencies have taken final action on permits, licenses, or approvals for a transportation project. If such notice is published, claims seeking judicial review of those Federal agency actions will be barred unless such claims are filed within 180 days after the date of publication of the notice, or within such shorter time period as is specified in the Federal laws pursuant to which judicial review of the Federal agency action is allowed. If no notice is published, then the periods of time that otherwise are provided by the Federal laws governing such claims will apply.

Comments on this SFEIS are due by  
April 27, 2007 and should be sent to:

Mr. Gregory L. Bailey, P.E.  
Director, Engineering Division  
WVDOT - Division of Highways  
State Capitol Complex, Building Five  
Charleston, WV 25305
