Materials Procedures approved at the last meeting (7/20/22)

1. 709.01.51 – *Acceptance Criteria for Epoxy Coated Reinforcing Steel*
2. 110.00.40 – *District Lab Inspections*
3. 100.00.00 – *Preparing Materials Procedures*
4. Reconfirmation of Various MPs

Actions from the last meeting on Materials Procedures pending approval (7/20/22)

1. ~~661.03.40~~ 661.02.40 - *Criteria to Approve Finished Aluminum Roadway Signs*. Number changed. Voted to Table pending updates from Ted Whitmore. Expecting vote at August or September MP Meeting.
2. 700.00.52 – *Guide for Source Rating System Relative to Maintenance Contracts*. July was first time at committee. No comments received, expecting to vote at August MP Meeting.

Materials Procedures - Old Business

Number	Champion	Title	Description
1-661.02.40*	Lipscomb	Criteria to Approve Finished Aluminum Roadway Signs.	This MP was created to make the acceptance and approval process for finished signs more streamlined. MP 661.03.40 is dead, and will not be carried forward, but instead MP 661.02.40 will be presented as a re-write.
2-700.00.52*	Moffitt	Guide For Source Rating System Relative to Maintenance Contracts	This change updates the testing frequency for aggregate approved sources. Since we have changed to site manager, we can no longer grade the producers on the last 20 samples. We now look at the weighted average of the past year. If a producer is removed from the A-1 list, we have come up with a way to place them back on quicker if they begin to meet compliance. Also, the evaluation calculations are shown and explained.

Materials Procedures - New Business

3-106.03.51&	Brown	Policy for Materials Certification Reciprocity	The revision is to take the Apprentice Certification out of the MP. and clean up the language for the Provisional Path.
4-601.40.20&	Perrow	Curing Concrete Test Specimens in The Field	Various updates to standards references, removed language about cardboard molds.
5-603.06.20*/&	Thaxton	Test Method for the Determination of Bond Strength Between Prestressing Steel Strand and Self-Consolidating Concrete (SCC)	Minor language cleanups, editorial changes only. Possibly up for vote. (Thaxton to discuss).

Note 1: * Denotes this MP is up for Vote

Note 2: & Denotes this MP is not up for Vote

Comments

Comments due August 10th so the Champion may review and address them. Submit comments to Adam Nester (adam.w.nester@wv.gov)

Next Meeting

Meeting Time/Date: 9:00am, September 21, 2022

Voting

MCS&T: Andrew Thaxton

Contract Administration: Matt Crum

Traffic: Ted Whitmore

Operations Division: Bill Murray

Technical Support: Steve Boggs

661.02.40 Criteria to Approve Finished Aluminum Roadway Signs

- Ted Whitmore had been in discussion with George Hanna and Dave Lipscomb; he found out the testing he was inquiring about wouldn't be feasible.
- Steve Boggs asked if "Supplemental Specifications" could be added in 3.1.
- Ted W. asked if this was the same one in the packet; Dave Lipscomb confirmed that it was the same one, word-for-word.
- Ted W. said that the information/references from the old one should be in the new MP "standard details."

106.03.51 Policy for Materials Certification Reciprocity

- Phil Brown said that he, Mike Mance, Justin Moffitt and Dave Matics had worked also on aggregate language for this MP.
- Phil said after speaking with consultants, he learned they didn't need the apprentice and that it is difficult to get a DOH inspector.
- Steve Boggs asked if the form regarding aggregate would be taken off the website and Phil said yes.

601.40.20 Curing Concrete Test Specimens in the Field

- Mostly, this MP updates to reflect changes in AASHTO.
- AASHTO T23 to R100
- Jamie Matics submitted comments and discussed.

603.06.20 Test Method for the Determination of Bond Strength Between Prestressing Steel Strand and Self-Consolidating Concrete (SCC)

- Reconfirmation.
